

Step 1.

Spread the stand and place it on the ground. Pour water into the water bag, then insert the trestle ④ into the stand. Place the round end of trestle ① into the bottom of flag, and use trestle ② ③ for extension until the flagpole stands straight.

Step 2.

Insert the flagpole into trestle ④

Step 3.

Adjust the fixer on trestle ④ to the appropriate position.

Step 4.

Hook the flag with fixer. Then pull down the flag until it stands straight and screw it tightly.

Step 5.

Finish.
